

## REACH Policy Statement

In June 2007, the European Union Regulation (EC) 1907/2006 concerning the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH) was first released. This Regulation establishes specific duties and obligations for companies in the European Union (EU) that manufacture or import substances on their own, in preparations, or in articles.

Solid Semecs BV as a subcontractor, manufacturers products in line with the specifications and the Bill of Material provided by you as our valued customer. Solid Semecs BV is committed to comply with all applicable laws and regulations. Under the structure of the REACH Regulation, Solid Semecs BV is a manufacturer and supplier of "articles" to our customers. We do not manufacture or supply "substances" or "preparations" and our articles do not involve the "intentional release of substances".

Solid Semecs BV is constantly monitoring the substances of very high concern (SVHCs), as defined by REACH, in our products. This will be an on-going process since the complete list of SVHCs will be released in stages.

Solid Semecs BV products (articles) do not contain Substances of Very High Concern (SVHC) above the threshold value declared as per ECHA till 15-Jan-2015 with 161 SVHC.

Solid Semecs BV is committed to work with our customers and suppliers to ensure effective implementation of this legislation.

On the other hand we would appreciate very much:

- If you could check, especially when defining new components in the Bill of material, that these components and materials also meet the REACH regulations.
- If you could inform us about the status (REACH compliant or not) when sending us your product specification and Bill of Material.

Semecs shall not be liable, under any theory of law, and shall not be responsible to defend or indemnify any party should any material out of compliance.
